Our Story

Jean-Guy Bourguignon
Co-Founder
VidaCeuticals Health Products Inc.

VidaCeuticals Health Products co-founder at the age of 53 jumped onto a new lifestyle path, a path where he lost over 100 lbs., while increasing muscle mass and eliminating most past illnesses that came with bad lifestyle choices... he had found himself on a path of unhealthiness that he chose to jump off of and decided to start making healthy simple and using Vidaceutical Products.

Since Switching his lifestyle and incorporating Vidaceuticals products

- Never regained weight
- Past illnesses have disappeared
- Minimal medications needed
- In peak physical condition at age of 56

The Problem

In North America we heavily rely on pharmaceuticals to mitigate issues we may be having instead of changing our lifestyles and addressing the causation. The most common issues people face are:

- Obesity
- High Blood Pressure
- Heart Conditions
- Diabetes
- Lack of energy
- Etc

This is due to poor diets, lack of exercise, lack of energy and lack of products that are able to do as they say.

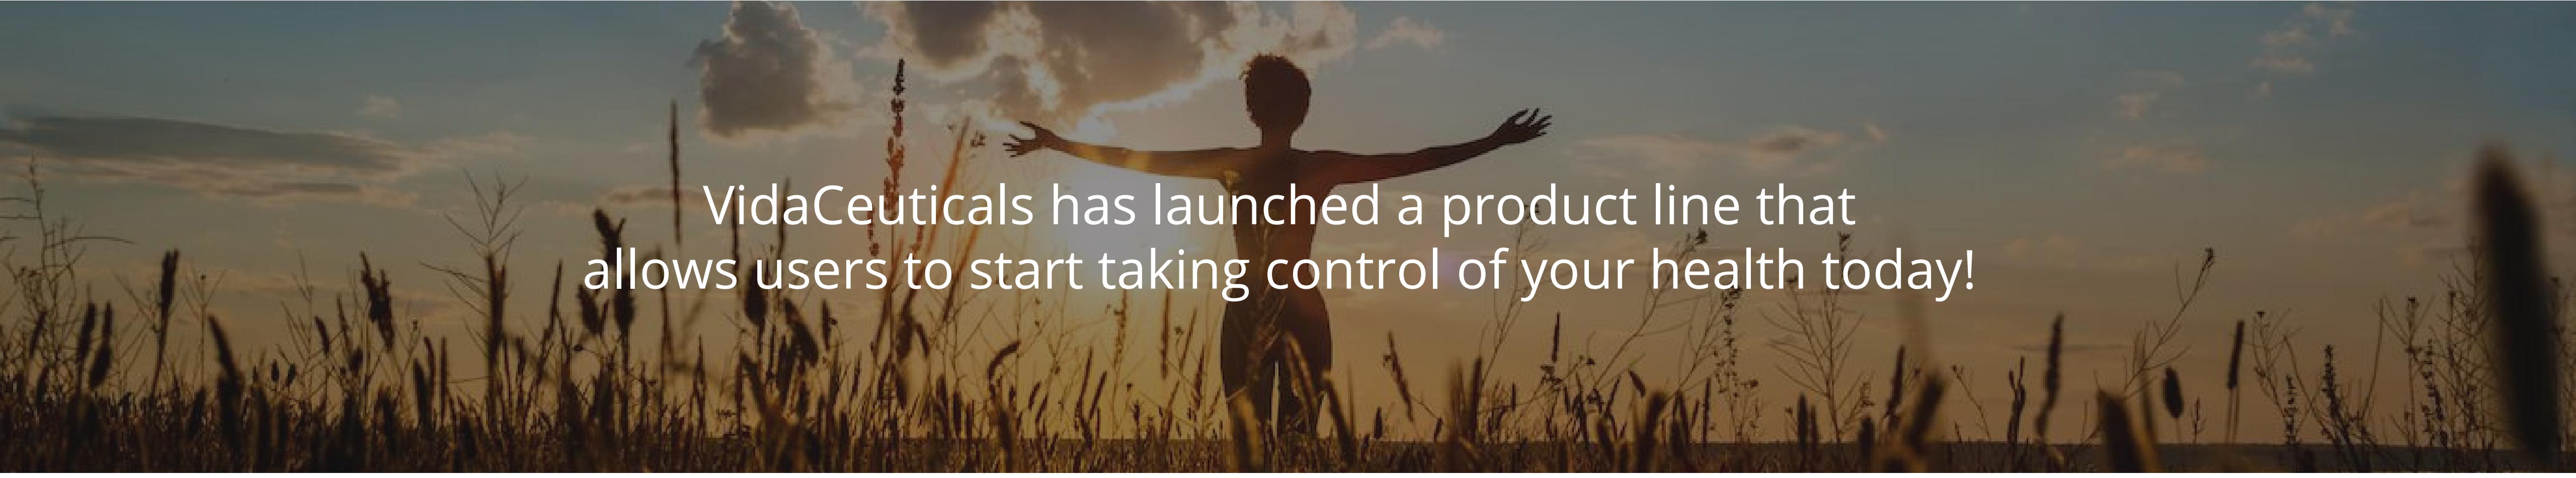

Our Goal

VidaCeuticals Health Products, were released with a purpose; a purpose to address many of the average North Americans incremental conditions that have led society towards the path of unhealthiness; from an increasing majority becoming unhealthy, to overweight, obese and sadly including morbid obesity that comes with a menu of illnesses and medication that continuously multiply themselves with time; where unless one's lifestyle changes, in conjunction with developing healthy habits, unhealthiness progresses with age to dying longer instead of living a full, vibrant lifestyle.

The Solution

VidaCeuticals has launched a product line that allows users to start taking control of your health today!

VidaCeuticals Health Products were engineered and nutraceuticalized to optimize the benefits of health products supplements that differentiate from those found on the market... not only designed for longevity, but developed and marketed by those that strive for longevity while practicing what they preach.

Our Starting Line Up

Here is a few of the products we are launching and bringing to market.

These products are pharmaceutically driven and naturally produced to allow you to start taking control of YOUR health back into YOUR own hands!

VIDA-S⁰

Sweetness on the go,
that keeps you on the go.

VIDA-S⁰ is an all natural zero-carbohydrate, zero-calorie sweetener with a focus on looking and tasting like sugar, that helps with the transition from the detrimental affects of the free radicals caused by the addiction of all sugars, on the body & mind (backed by data and research), while giving the balance of an natural plant base sweetness without the serum sugar spike, and affecting the glycemic index and loads on the body i.e. Blood-Sugar levels...

VidaCeuticals Vida-S0 was formulated for all ages, in two formats to meet the daily lives of kitchen & food creations, along with offering dissolvable tablets format for your favorite beverages, or to take on the go for when sweetness is desired.

With Vida-S0 you can now have your cake and eat it too! This product lets you indulge in sweetness without the guilt!

VIDA- C14

Pharmaceutical driven,
naturally produced.

VIDA-C¹⁴ is a powerful anti-inflammatory that was introduced to help treat the increase of inflammatory condition caused by the average north American lifestyle, a lifestyle that impedes healthy active living; an active lifestyle that is needed to continue living vibrantly, and enabling to continue oneself to stay on the path of health, fitness, and a quality of life, for as long as one can...

Vida-C14 was formulated to provides relief from pain, swelling and other common ailments associated with systemic inflammation that is supported with a Health Canada NPN#; a lifestyle product that helps with increasing daily active living by:

- Providing antioxidants for the maintenance of good health.
- Which activates within the body in hours instead of days like regular curcumin.
